Six Handed Paradise Road Pick'em Tournament Structure

Time: Tuesday, 7/27/2021 at 11:00 am
Initial Chips: T10000
Rounds: All levels are 18 minutes. 6 handed tables.

Each player is dealt three cards. The under the gun player determines which HORSE game will be played that hand. If the under the gun player is unavailable to select a game, the game will be Hold'em. When heads-up or three handed, the button will choose the game for that hand.

If Hold'em is selected, each player must discard one card on their preflop action unless they fold. If Omaha/8 is selected, each player is dealt an additional card. If Razz, Stud, or Stud High/Low is selected, each player will fold, call, or raise, and if a player calls or raises they will roll a door card of their choice at that time.

Late registration will be allowed until the end of the first break (or later at the discretion of the Organizers).

If a player busts and has both lammers remaining, they may redeem either one or both before the next hand. If not used earlier, all lammers must be cashed in at the end of level 12.

*The "Raise To" column assumes that you are first to enter the pot after the blinds pre-flop. The maximum raise is determined by the size of the pot, after first adding your implied call of the action to you. The minimum raise is the size of the last blind or raise.

For All BARGE Poker Tournaments:

To facilitate table balancing and fairness, a player chosen to move to balance a table will be selected based on position from the button instead of from a random draw.

Coney Island Whitefish Memorial CHORSE Tournament Structure

Time: Thursday, 7/29/2021 at 10:00 am
Initial Chips: T16000

Levels 1-3 are two orbits of each of the two games per table.
Level 4 is 12 total hands consisting of two rotations through CHORSE (starting with C), playing one hand of each game in order. Level 5 is one hand per remaining team with each team choosing which game to play for one hand.

| Level | Antes | Bring-in | Blinds | Limit |
|-------|-------|----------|---------|-----------|
| 1 | 25 | 25 | 50-100 | 100-200 |
| 2 | 50 | 75 | 100-200 | 200-400 |
| 3 | 75 | 100 | 150-300 | 300-600 |
| 4 | 100 | 150 | 200-400 | 400-800 |
| 5 | 150 | 200 | 300-600 | 600-1,200 |

Rules for the Team CHORSE competition

1. In the event of any discrepancy in the rules, CHORSE director Kevin Un's decision will be final.
2. Each team will consist of six players, and each player will play one of six games: Crazy Pineapple High/Low, Hold'em, Omaha High/Low, Razz, 7-Card Stud, and 7-Card Stud High/Low.
3. The event cost is \$480 per team. This entry fee includes T16000 in tournament chips each with a cash value of 2.5 cents (\$400), a prize for the first place team (\$40), and house and staff/dealer fees (\$40). No rebuys will be permitted. Toking during play is encouraged but not required. Tokens collected at the end of the tournament will be given to the floor.
4. Each team will be in play on three tables at one time. The first table will feature Hold'em and Omaha/8. The second table will feature Razz and Crazy Pineapple. The third table will feature Stud and Stud/8. At the end of each level, each team's chips will be combined, then divided as equally as possibly among their three tables.
5. This year the game order will be: Omaha/8 then Hold'em, Razz then Crazy Pineapple, Stud/8 then Stud.
6. Seating assignments will be determined by random draw prior to the event. The button will start in seat 1.
7. The button rotates through all seats with chips. After the orbit is complete, players for the next game will rotate in. Normal Las Vegas button moving rules will be used (the button is positioned on the player who was the last to pay a small blind).
8. Maximum 9 teams per table. Tables will synchronize their play at the end of each orbit. Tables will be balanced to equal size at the end each round, if necessary.
9. In 7-Card Stud ONLY, if there is an open pair on 4th street, a player may make a double-sized bet.
10. If there are more than 9 teams at the start of the tournament, the tables are combined if/when the total number of teams reaches 8. Once this threshold is reached, each table finishes its current orbit, new seats are drawn for the final table, and play resumes at the same point it left off.
11. During the first two levels of play, teams may use alternate players (i.e., players not on their official roster of six players). Alternates may be allowed during later rounds at the discretion of the tournament director.
12. No alternate player may play for more than one team.
13. No player may play more than one type of game.
14. If a player is absent, they are still responsible for the blinds/antes.
15. At the end of level 3, the top six teams in chip count will proceed to the official CHORSE final table and level 4. The remaining teams will be eliminated and cashed out.
16. Beginning in level 4, ALL team members may participate in ALL hands if they so choose.
17. After the completion of the 12 hands that make up level 4, level 5 will be played. Level 5 consists of a number of hands equal to the number of teams remaining. Beginning clockwise from the dealer, each team will select one CHORSE game to play. There will be a chip count after each hand. After the final hand, the team with the most chips will be declared the winner and (1) have their name engraved on the perpetual CHORSE plaque, (2) win the CHORSE trophies, and (3) win the first place cash prize.
18. At the end of the tournament, or when a team is eliminated, each team will receive \$1 in cash for each T40 they have remaining.

Any number of lammers may be converted to tournament chips between hands. For example, they may both be cashed in at the beginning of the tournament to create a T20000 stack, or they may be cashed in one at a time after the player loses his or her stack, or any combination in between. If a player busts and has both lammers remaining, they may redeem either one or both before the next hand. If not used earlier, all lammers must be cashed in at the end of level 12.

*The "Raise To" column assumes that you are first to enter the pot after the blinds pre-flop. The maximum raise is determined by the size of the pot, after first adding your implied call of the action to you. The minimum raise is the size of the last blind or raise.

For All BARGE Poker Tournaments:

To facilitate table balancing and fairness, a player chosen to move to balance a table will be selected based on position from the button instead of from a random draw.

Chip Races:

No one will be allowed to bust out because of the chip race. Anyone in such danger will receive one higher denomination chip.

There will be a five minute break and redraw of seats for the final table.

The table above is designed with the following necessary constraints:

- The last paying place always assures the participant of getting at least his money back.
- A higher place never pays less than a lower place in a given tournament.

The table above is also designed with the following arbitrary constraints:

- As the number of players increases, the percent of the field being paid is reduced, heading asymptotically to 10%.
- As the number of players increases, the percentage of the payout for a given place must not increase.
- As the paying place becomes worse, the number of players receiving the same payout will not decrease.
- For a given place, the gap between that payout level and the one above it must never be lower than the gap between a given payout and the one below it.
- For a given place as the number of participants goes up, when the payout percentage drops, the amount it drops must not be a greater amount than for any previous drop for a smaller number of entrants.
